

Springfield/Platteview School District Serves Lake Ridge Estates' Students

The Springfield/Platteview School District provides the PK-12 educational services to students residing in Lake Ridge Estates. At the recent Annual Home Owners Meeting, a resident shared that information on the Sarpy County Tax Assessor's website appeared to indicate that taxes for Lake Ridge Estates residents would be paid to the Gretna School District. This was an error on the part of the Sarpy County Assessor's Office and the correction has been made to show the taxes will be paid to the Springfield/Platteview School District as has been done consistently in the past.

Brian Duckett, HOA Board member, did contact the Gretna School District to verify that no change was being made. He communicated with Jean Anderson who oversees Enrollment/Boundaries for the Gretna School District. She indicated that Gretna does not have the building capacity to enroll students from outside the district boundaries. She further indicated that school district boundaries seldom change and that, again, due to building capacity issues it was very unlikely that Gretna would be making any changes in the future.
